

CGR - More Tools for the Reloader

MEC fitting UNIVERSAL Bars

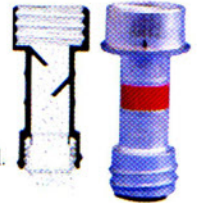

ACCS8 Universal charge bar C/CS including Powder Baffle £54.00 dc. £4.25
ACCS9 Universal charge bar D/DS including Powder Baffle £57.00 dc. £4.25
European Powders bar setting chart £2.00 inc. postage

Multi-Scale Universal charge bars fit all MEC reloading machines. The current models have fully adjustable micrometer type settings for powder and shot, together with new anti-shear inserts for loading Lead, Bismuth, Steel, and Tungsten Polymer shot. Made in two models C/CS for the MEC single stage reloaders and D/DS for all the MEC progressive machines.

Powder Baffle

Features & Benefits:

- ◆ Assures even powder density - and consistent charges.
- ◆ All-metal precision die-cast zinc construction.
- ◆ Spring-loaded for a better powder seal.
- ◆ If you already own a universal charge bar, you can purchase powder baffle separately

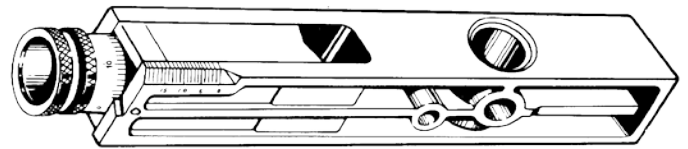

New Type Multi-Scale powder baffle makes the metering of the powder more accurate. Its spring loaded powder trap is designed to keep pressure on the grommet and washer seal to reduce migration caused by the bar movement.

Multi-Scale Shuttle bar is ideal when reloading small bore cases like .410 and 28 gauge. The advantage of using a standard bushing with small bores is that the powder drop is always centred over the drop tube. Because shot drops are more critical with small bores, the adjustable shot measure always gives the correct weight of shot regardless to the shot diameter.

ACCS10 Shuttle Bar £46.50 dc £4.75

ACCS11 MEC fitting only, £12.75 p&p £2.40

Powder Bushings

CGR

Hornady, Pacific or Ponsness/Warren to MEC Powder bushing adapter

CGR's powder bushing adapter is made for them in the UK. It enables those who already have MEC bushings to be used in Hornady, Pacific, or such as Ponsness/Warren reloading machines where large powder drop gaps appear. If you own two different types of reloader it save you having to buy two makes of bushing to do the same job. MEC has 50 bushings but P/W only 41.

MEC Bushing Rack for 10 Powder bushings. Constructed of metal attachable to a wall or free standing. **£11.50 dc. £4.75**

Powder Bush Adapter £9.00 dc. £1.00

REDDING

Redding have 20 Powder Bushings and 6 Shot Bushing all made by CGR. While stocks last, some are now sold out. **£4.50 p&p £1.50**

"The Mag-Rack"

Cheap to clear £4.50 each or £7.50 for 2 inc. p&p

The Clay&Game Reloaders Mag-Rack is probably one of the most useful devices you can buy. It is magnetically attachable to many metal surface and is ideal as an extra support in a gun cabinet or stop your guns from falling over when at a shoot. It can also be used for fishing rod support or even golf clubs, etc.
